Connecting the world  
with cutting-edge ICT solutions  
& services for over a decade

At Insync International L.L.C., we're more than just an ISO 9001:2015 certified Information and Communication Technology (ICT) Consultancy and Service Company.

We're a team of passionate professionals dedicated to deploying cutting-edge technologies and re-developing customer information systems in line with the constantly changing environment and industry requirements.

Established in UAE since 2012, we've been at the forefront of addressing market needs for the implementation of Telecom (Mobile/Fixed) Network Systems, Wireless and Wireline (Copper/Fiber) Networks, ICT Solutions & Services, ELV Systems and Power Systems. Our commitment to excellence has allowed us to build a strong reputation as a trusted partner for businesses and organizations across a wide range of industries.

What sets us apart is our team of experienced and highly motivated managers, engineers, and technicians who bring their expertise and passion to every project. With their robust capabilities and in-depth knowledge, we are proud to have successfully delivered Telecom/ICT/ELV projects in strict conformance to the client specifications and individual project parameters.

## Vision

To be the leading provider of innovative and reliable Information and Communication Technology solutions and services that enable our clients to thrive in the digital age.

## Mission

At Insync International L.L.C., our mission is to deliver high-quality and cost-effective ICT solutions and services that meet the unique needs of our clients. We strive to stay ahead of the curve by leveraging the latest technologies and best practices to drive business value and help our clients achieve their goals. We are committed to building long-lasting relationships with our clients based on trust, collaboration, and a shared commitment to excellence.

## HSE Policy

At Insync International L.L.C., we are committed to providing a safe and healthy workplace for our employees, contractors, and visitors. We recognize the importance of protecting the environment and minimizing our impact on it. As such, we have implemented a Health, Safety, and Environment (HSE) policy that includes the following principles:

- **Compliance:** We comply with all relevant health, safety, and environmental legislation, regulations, and industry standards. We also establish and maintain procedures to ensure compliance.
- **Risk Management:** We identify and assess potential health, safety, and environmental risks and implement controls to eliminate or minimize those risks.
- **Training:** We provide adequate training and information to employees, contractors, and visitors to ensure their safety and health, and to minimize environmental impacts.
- **Communication:** We maintain open communication with employees, contractors, and visitors regarding HSE issues and encourage the reporting of incidents and hazards.
- **Continual Improvement:** We continually monitor and review our HSE performance and implement improvements where necessary to achieve our HSE objectives.
- **Emergency Preparedness:** We establish and maintain procedures to prevent and respond to emergencies, including fire, chemical spills, and natural disasters.
- **Sustainability:** We strive to minimize our environmental impact by reducing waste, conserving resources, and promoting sustainable practices.

We expect all employees, contractors, and visitors to comply with our HSE policy and procedures, and to actively participate in creating a safe and healthy workplace and protecting the environment.

## Quality Policy

At Insync International L.L.C., we are committed to providing our clients with the best procedures, processes, and strategies to implement their projects. We believe that quality is not an option, it is a necessity. Therefore, we follow the international installation standards and best practices in the ICT industry, and continually strive to improve the effectiveness of our Quality Management System.

## Certifications and Achievements

Our Quality Management System adheres to the guidelines of ISO 9001:2015, attesting to our commitment to quality. In addition, our company and products are certified and accredited by the regulating bodies in the UAE.

# What We Do

Our core activities include:

- ✓ Telecom Networks
- ✓ ELV Systems
- ✓ Wireless Networks
- ✓ Wireline Networks
- ✓ Consultancy Services
- ✓ Software Solutions
- ✓ Power Systems
- ✓ Civil Infrastructure

We are committed to delivering high-quality solutions and services to our clients, using the latest technologies and adhering to the highest industry standards.

# Telecom Networks

## Mobile Network

We provide end-to-end telecom network solutions and services to licensed operators, service providers, and corporate end-users. Our services include:

- › **Tower and RF Antenna System Installation**
- › **Telecom Installation, Commissioning, Testing, and Integration**
- › **Recovery of Telecom Equipment**
- › **Network Parameter Settings and Site On-Air Verification**
- › **Network Audits, Benchmarking, and Drive Testing & Optimization**
- › **Network Acceptance**
- › **Microwave Transmission Implementation**
- › **Field Services & Maintenance**

At Insync, we are committed to delivering high-quality telecom solutions and services that are efficient and cost-effective. Our team of experienced professionals has the expertise and the know-how to ensure that your network is deployed and maintained to the highest standards.

## Fixed Networks

As a leading provider of telecom network solutions and services, Insync offers a comprehensive range of fixed line network solutions and services to operators in the United Arab Emirates. We specialize in the design, planning, and implementation of ISP, OSP, and active networks that are tailored to the specific requirements of our clients.

Our team of experts has years of experience in designing and implementing fixed line networks that are reliable, scalable, and secure. We use the latest technologies and best practices to ensure that our clients have a network infrastructure that can support their business needs today and in the future.

Our fixed line network solutions and services for operators include:

- › **Network Design**
- › **Network Planning**
- › **Network Implementation**
- › **Network Optimization**

At Insync, we are committed to delivering high-quality and cost-effective fixed line network solutions and services to operators in the United Arab Emirates. We work closely with our clients to understand their business requirements and to provide customized solutions that align with their goals and objectives.

## ELV Systems

### Telecom Infrastructure (SCS System)

At Insync, we offer a wide range of ELV (Extra Low Voltage) systems to enhance the safety and security of your business. Our team of experienced professionals are equipped with the latest tools and technology to offer you the best-in-class solutions for your ELV requirements.

Our services include **Distribution of Authorized Products, Installation of MTR/MMR Racks, ODF's, Structured Cabling (CAT6/Fiber) Systems, Fiber Cable Splicing & CAT6 Cable Terminations, Installation, Patching, Labeling of Splitters & Units as per Operator's Standard, Final RFS Inspection & NOC from Operators**

### Consultancy Services

Our consultancy services offer the expertise of our team to work with telecom operators, municipalities and SIRA to obtain the necessary NOC approvals for ELV systems that are implemented according to the relevant standards.
